Dear Yale Engineering Community,

The Department of Computer Science is excited to announce our inaugural computer science, data science, and software engineering career fair will take place on September 22nd, 2023 at Yale University (Lanman Center). Students across all programs and levels (undergraduate, graduate, and postdoc) are invited to attend. Registration for companies and vendors to attend is available online at our department website.

Today, The Department of Computer Science is home to over 850 students (~700 undergrad, +150 MS/PhD), with nearly 50 tenure-track and lecturer faculty. The department has several research focus areas, including:

- Algorithms and Complexity Theory
- Artificial Intelligence and Machine Learning
- Computer Architecture
- Computer Graphics
- Computer Music
- Computer Networks
- Database Systems
- Distributed Computing
• Natural Language Processing
• Operating Systems
• Programming Languages and Compilers
• Quantum Computing
• Robotics
• Scientific Computing and Applied Math
• Security and Cryptography
• Societal and Humanistic Aspects of Computation

The Office of Career Strategy will offer resume, networking, and LinkedIn workshops leading up to the event in September for interested students.

Please visit our department website for additional information and instructions to register for this event. Please send questions to career.fair@cs.yale.edu.

Thank you,

Tyler Schroder, Yale College '25
Director, Computer Science Student Career Fair
